

- 01 Tank Maturity will keep track of how long a specific aquarium has been set up and running.
- 02 To update your aquarium's tank maturity, click on the gear icon to update your tank details.
- 03 The "Date Started" field under tank details adjusts the dashboard tank maturity.
- 04 After updating the start date, click "Save Tank" and return to your dashboard.
- 05 You will notice the tank maturity is updated.
- 06 Note: You can only adjust the start date month, day, and year. The time will always be assumed as 12:00 PM.
